#### FOR IMMEDIATE RELEASE

#### LIVE NATION REPORTS STRONG THIRD QUARTER 2009 RESULTS

- Revenue growth of 14% to \$1.8 billion driven by a 12% increase in attendance -

- Income from continuing operations before taxes growth of 53% to \$96 million -

- Free Cash Flow nearly doubles to \$123 million -

LOS ANGELES – November 9, 2009 – Live Nation (NYSE: LYV) released financial results for the three months ended September 30, 2009 today.

#### **Quarterly Summary Results**

Unaudited; \$ in millions

	Q3 2009	Q3 2008
Revenue	\$1,808.3	\$1,588.5
Adjusted Operating Income	\$ 160.8	\$ 109.5
Operating Income	\$ 114.8	\$ 75.5
Free Cash Flow	\$ 123.2	\$ 64.4

"We generated robust organic growth from our operations during the third quarter as we focused on executing our fundamentals with excellence during the peak concert season," said Michael Rapino, President and Chief Executive Officer of Live Nation. "Our dedication to driving efficiencies across our core operations helped drive solid free cash flow of \$123 million in the third quarter as we continue to focus on reducing our overall leverage. Our ability to generate strong attendance growth of 12% despite the worst economic climate in decades speaks to the strength of our concert platform and our ongoing focus on improving how we promote, price and distribute live music products to millions of fans globally."

"The launch of our new e-commerce ticketing site has allowed us to start vertically integrating into a high-growth sector and improve our core business of selling more tickets directly to fans," Rapino continued. "There is more that we want to do, but Livenation.com is already a highly ranked music destination attracting millions of fans daily, seeking tickets and information on their favorite concerts. Despite a challenging advertising environment, we have also grown our sponsorship revenue by almost 5% year-to-date which illustrates our ability to connect brands, concerts and music fans. With these growth levers, along with our disciplined approach to cost management, we believe that we are well-positioned to deliver healthy gains in our annual cash flows with a priority on reducing our long-term debt and strengthening our balance sheet."

#### **Highlights:**

• Recently completed the sale of our remaining U.K. theater assets, in two transactions, for aggregate gross sales proceeds of approximately \$160 million. Half of the net proceeds, currently estimated at approximately \$111 million, will be applied as a permanent reduction in our term loans.

- Through our LiveNation.com network, we have sold 10.6 million tickets globally since the beginning of 2009, including 3.0 million tickets sold in the third quarter of 2009. This total for the year includes 1.7 million tickets sold internationally.
- We had continued success with our "No Service Fee Wednesday" promotion, selling over 816,000 tickets in North America through this program during 2009.
- Our LiveNation.com network was ranked 5<sup>th</sup> by Nielsen NetView among the most-visited domestic music websites, with 5.0 million unique visitors in the month of July. Traffic to our website has increased by over 55% in the first nine months of the year as compared to last year.
- Reported revenue of \$1.8 billion for the third quarter reflects an increase of \$220 million over the third quarter of 2008. Revenue on a constant currency basis was up 19% over the prior year.
- Sponsorship revenue totaled \$78.5 million during the third quarter, an increase of 4.4% over the prior year. In October 2009, Live Nation formed a multi-year strategic sponsorship and marketing alliance with Coca-Cola that leverages the company's artist-to-fan distribution platform.
- Income from continuing operations for the third quarter was \$79.2 million as compared to \$30.7 million in 2008, after adjusting 2008 for the tax benefit of \$64.1 million recorded in continuing operations related to discontinued operations. For the first nine months of 2009, the loss from continuing operations was (\$50.8) million as compared to (\$59.6) million in 2008, after adjusting 2008 for the tax benefit of \$83.1 million recorded in continuing operations related to discontinued operations.
- We continue the process of seeking regulatory approval for our pending merger with Ticketmaster Entertainment, Inc. and we currently expect that this transaction will be completed in the first quarter of 2010. For the third quarter of 2009, we incurred \$7.8 million of acquisition transaction expenses. These costs are now required to be expensed under new accounting rules in 2009 and therefore reduced our operating income for the period.

Key operating metrics related to our business for the third quarter and nine months ended September 30 are outlined below:

This press release contains certain non-GAAP financial measures as defined by SEC Regulation G. A reconciliation of each such measure to its most directly comparable GAAP financial measure, together with an explanation of why management believes that these non-GAAP financial measures provide useful information to investors, is provided below.

Adjusted Operating Income (Loss) is a non-GAAP financial measure that the company defines as operating income (loss) before acquisition transaction expenses, depreciation and amortization, loss (gain) on sale of operating assets and non-cash compensation expense. The company uses Adjusted Operating Income (Loss) to evaluate the performance of its operating segments. The company believes that information about Adjusted Operating Income (Loss) assists investors by allowing them to evaluate changes in the operating results of the company's portfolio of businesses separate from non-operational factors that affect net income, thus providing insights into both operations and the other factors that affect reported results. Adjusted Operating Income (Loss) is not calculated or presented in accordance with U.S. generally accepted accounting principles. A limitation of the use of Adjusted Operating Income (Loss) as a performance measure is that it does not reflect the periodic costs of certain capitalized tangible and intangible assets used in generating revenue in the company's business. Accordingly, Adjusted Operating Income (Loss) should be considered in addition to, and not as a substitute for, operating income (loss), net income (loss), and other measures of financial performance reported in accordance with U.S. GAAP. Furthermore, this measure may vary among other companies; thus, Adjusted Operating Income (Loss) as presented herein may not be comparable to similarly titled measures of other companies.

<u>Free Cash Flow</u> is a non-GAAP financial measure that the company defines as Adjusted Operating Income (Loss) less net cash interest expense, less current tax expense, less maintenance capital expenditures, less distributions to noncontrolling interest partners plus distributions from investments in nonconsolidated affiliates net of contributions to investments in nonconsolidated affiliates. The company uses free cash flow, among other measures, to evaluate the ability of its operations to generate cash that is available for purposes other than maintenance capital expenditures. The company believes that information about free cash flow provides investors with an important perspective on the cash available to service debt and make acquisitions. Free cash flow as a performance measure is that it does not necessarily represent funds available for operations and it is not necessarily a measure of our ability to fund our cash needs. Accordingly, free cash flow should be considered in addition to, and not as a substitute for, operating income (loss) and other measures of financial performance reported in accordance with U.S. GAAP. Furthermore, this measure may vary among other companies; thus, free cash flow as presented above may not be comparable to similarly titled measures of other companies.

<u>Free Cash</u> is a non-GAAP financial measure that the company defines as cash and cash equivalents less event-related deferred revenue, less accrued artist fees, less collections on behalf of others plus prepaids related to artist settlements and events. The company uses free cash as a proxy for how much cash it has available to, among other things, optionally repay debt balances, make acquisitions and finance venue and other revenue generating expenditures. Free cash is not calculated or presented in accordance with U.S. generally accepted accounting principles. A limitation of the use of free cash as a performance measure is that it does not necessarily represent funds available for operations and it is not necessarily a measure of our ability to fund our cash needs. Accordingly, free cash should be considered in addition to, and not as a substitute for, cash and cash equivalents and other measures of financial performance reported in accordance with U.S. GAAP. Furthermore, this measure may vary among other companies; thus, free cash as presented herein may not be comparable to similarly titled measures of other companies.
